Fanni Reunion Board of Directors in their last meeting discussed the E-mail of Dr. Khosro K Panahi to Dr. Siamak Jafroudi, and resolute as follows:

Resolution of the Fanni Reunion Foundation, Inc. (FRF) Board of Directors  
For Proposed Unification of

**“Fanni Reunion Foundation (FRF)” and “Fanni Association (FA)”**

**July 16, 2002**

Board of Directors of the FRF is pleased of your decision to unify the two organizations. We believe that combining our activities into the framework of a single organization will help all Fanni graduates, faculty, and staff outside of Iran to direct their efforts in supporting programs concerning Daneshkadeh-e-Fanni (Fanni) and its graduates at one place. **This way we can become stronger and more effective in reaching our objectives (goals), which would lead to providing educational support to Fanni.**

Let us begin with briefly introducing FRF and its present status for your information. Fanni Reunion was established in 1994 and gradually grown to its present size and programs offered. FRF has been incorporated in December of 2000, as a non-profit mutual benefit corporation in the State of California. In the first meeting of organizing individuals, which was held on April 17, 2001 Dr. Siamak Jafroudi (the incorporator) assigned 10 individuals as the initial Board of Directors to serve for three years. The idea was to have ample time to develop formal membership within three years, and to hold general election at that time. To acquaint yourself with names and positions of FRF Board of Directors and Officers, please visit our preliminary web site at [WWW.Beam.to/Fannireunion](http://WWW.Beam.to/Fannireunion).

We also would like to inform you that FRF’s domain of operation covers all countries except Iran. We have close ties with the Fanni Alumni Association (Kanoon Fanni) inside Iran. By reviewing your proposed Bylaws, we see no conflict in principles between them and our bylaws. Prior to finalizing and approval of our Bylaws, we will make sure that all significant items in your proposed Bylaws are included in FRF’s Bylaws. By visiting our preliminary web site you may notice that FRF’s Mission and Vision Statements are essentially the same as what you are proposing. Based on these observations, since our objectives and interests are the same, we can easily unify our activities within a single organization. **We are glad that you have also reached the same conclusion and welcome our merger.**

Although FRF’s Board of Directors formally manages all activities of the organization, we benefit from suggestions, ideas, and support of many individuals that are not on the Board. In fact some of these individuals participate in all decision-makings and activities, and accept responsibilities like Board members. We propose at this time, that all individuals named as FA’s Board of Directors to feel that they are equally important, and will be involved in all decision-makings and share the same responsibilities. **We believe that it will be more productive that we concentrate our thoughts and energy into designing programs and activities that lead us towards our goals.** However, if any of FA’s Board members prefers a formal position in the organization, it will be welcomed with great pleasure and anticipation.

We look forward for this unification, and believe that the outcome will significantly enhance our image and position to outsiders, **and also expedite our success in reaching our goals.**

With kind regards and Eradatmand,

Hassan Hossein Zadeh  
Chairman of the Board

Dear Dr. Erfani and All,

Thank you and other friends for positive responses to my e-mail dated July 25, 2002 regarding Unification/Merger of Fanni Reunion Foundation (FRF) and Fanni Association (FA). Also, Dr. Karim-Panahi conveyed his support and has had some discussions with Dr. Ashrafi and myself regarding the Bylaws. In addition I received your e-mail dated September 9, 2002 regarding the worldwide Fanni Reunion gathering of 2003 or 2004. The Board of Directors of FRF discussed these matters during its last meeting and came up with the following:

1. FRF has an established organization (Fanni Reunion Foundation Inc.) and Bylaws. Attached Please find these Bylaws. I would appreciate it if all the recipients of this e-mail would review it and provide me with their feedback within the next four weeks (please not later than October 21, 2002). We (FRF and FA together) have opportunity to do all necessary modifications prior to April 2003, and approve it in our annual meeting in April 2003. With your help and feedback we can finalize these Bylaws in order to layout a good foundation for achieving our goals and objectives.
2. The existing FA is mainly comprised of academic and scientific members, who are involved in academic and research fields. The existing FRF is mainly comprised of those who are active in engineering practice and industries. Therefore, our unification will create a perfect combination, that will be more diverse and all encompassing. In addition we could concentrate our thoughts and energy into designing programs and activities that lead us toward our goals, without duplications and shortcomings.
3. FRF has already planed to have the 9<sup>th</sup> Annual Celebration (which coincides with Fanni's 68<sup>th</sup> Anniversary) on October 19, 2002 (27 Mehr, 1381) at the Westin Hotel (Los Angeles Airport). All Fanni's Faculty, Graduates, Staff, and their families are welcome to participate. I encourage the recipients of this e-mail to reserve some seats or a table for ten. Fanni graduates and their families who are pursuing their education in graduate schools pay \$30 per ticket, and the rest will pay \$60. A special room rate of \$99 per night is available for this event. Please call (800) 937-8461. Hope to see you and your family at the celebration.
4. We believe that the Board of Directors of FRF and FA are one entity and have the same goals and objectives. Therefore, We (FRF and FA together) can concentrate our efforts toward the unification by adopting one Bylaws and one website, and nominate/select a combined executive committee to organize duties of the 2<sup>nd</sup> Worldwide Fanni Reunion event. Year 2003 or 2004 2<sup>nd</sup> Worldwide Fanni Reunion could be turned into a landmark as our unification provides a clear concept for our immediate and future activities. Members of this committee could be from all fields, including faculty, practicing engineers, industrialist, etc. The committee could decide about time, location, theme, programs, and arrange for visa and lodging facilities of those participant arriving from the outside of USA, and more.
5. With reference to Dr. Nourani's e-mail, subject Observations on the Sharif-reunion and your e-mail of September 5, 2002 titled Observations/ Thoughts, I believe that, with the new arrangement, gradually we will achieve most of our wishes such as fund raising, establishing scholarship funds, providing educational and technological support to Fanni, etc.
6. Finally, acting as a single organization will help us to direct our effort in preparing and supporting educational and technological programs concerning Daneshkadeh-e-Fanni, its faculty, students, graduates, and Kanoon (Alumni Association of Engineering Faculty of Tehran University). We propose to form a committee of interested individuals to design an educational plan in support of Daneshkadeh-e-Fanni's efforts to modernize and advance its educational curriculum. This committee will look at various means to offer this support, such as preparation of papers for publication in the Fanni's Technical Journal, arranging for short courses, etc. We would like to form this committee by the end of this year, so that the committee can start its work from January 2003.

Looking forward to your comments. Please contact me for any question or comments.

With kind regards,

Hassan Hossein Zadeh

Chairman of the Board
